esting Phase of the
Question.

[SPECIAL TO THE GAZETTE.]

Spokane, Wash., Aug. 10.—The beginning of this, the second day of the National Irrigation Congress, was marked by an interesting address by Gifford Pinchot, chief of the United States forestry bureau, who delivered an address on the subject of "Home-Building for the Future." Other speakers on the program included R. E. Campbell of the forestry branch of the Canadian department of the interior; Bailey Willis of the United States Geological survey, and E. T. Allen, United States district forester.

The program prepared for the afternoon session was as follows: John Barrett, director of the International Bureau of American Republics, on "Water as a Resource"; Senator Albert B. Cummins of Iowa, on "Deep Waterways"; and J. N. Toul, member of the joint conservation committee, on "Deep Waterways for the Pacific Coast." Other scheduled speakers included N. W. Harris of Chicago and Dr. W. J. McGee, secretary of the National Waterways commission.

Chicago is keenly interested in this meeting from the fact that the Chicago Association of Commerce will endeavor to land the eighteenth session of the congress for that city. Other candidates are Rochester, N. Y., St. Louis, San Francisco, Pueblo and Charleston, S. C. The Chicago delegates are making the trip to Spokane in a special train. The Charleston party will be joined by delegates from various parts of South Carolina, Georgia, North Carolina and Florida.

Twenty-nine special trains have been engaged by commercial organizations in various parts of the country to bring

**JUDGES DIFFER AS

Share in His Estate With
Heirs.

[SPECIAL TO THE GAZETTE.]

Oshkosh, Aug. 10.—Judge Fowler of Fond du Lac has reached a decision in the matter of the claims against the estate of Allen Battin. The will provided a legacy of \$10,000 for the divorced wife of Battin who is now Mrs. Francis May Mantola. The principal heir, Martin T. Battin, of this city, contested the will and the Oshkosh court decided that Mrs. Mantola was not entitled to the legacy, having received a settlement at the time of the divorce. Judge Fowler, however, holds that the will provides the legacy and that she is entitled to it. The estate involves a total of \$50,000.

Atlanta Today—Red Men of
Minnesota Meet.

[SPECIAL TO THE GAZETTE.]

Atlanta, Ga., Aug. 10.—Masons from nearly all parts of the state are assembled here today to attend the annual convention of the Masons of the fifth district. The local Masonic lodges and the effort to make the convention, which will hold its first session at the midwinter this evening and will end its session tomorrow evening, the most successful and enjoyable ever held in this state.

The delegates began to arrive yesterday and this morning and afternoon were devoted principally to the welcoming of the arriving Masons by the local reception committees. The opening session this evening will not be devoted to the transaction of business. Worshipful Master J. B. McClelland will preside. Mayor Robert F. Maddox will deliver the address of welcome on behalf of the city, and Right Worshipful Master Jeffries will extend welcome on behalf of the Masons of Georgia. The response will be made by Worshipful Master McClelland. The grand masters of Alabama, Tennessee, the Carolinas and Florida will deliver short addresses.

Tomorrow there will be two business sessions and in the evening the master mason's degree will be conferred.

Minnesota Red Men Meet.
Brainerd, Minn., Aug. 10.—Hundreds of Red Men from all parts of the state and representing every tribe of Minnesota are in attendance at the sixteenth session of the Great Council of that order, which opened here today for a three day's session. The local members of the order have made great efforts to make this session of the council memorable and an unusually interesting program has been arranged.

**P. M.'S OF LONE STAR

for Three Days in the
City of Waco.

[SPECIAL TO THE GAZETTE.]

Waco, Tex., Aug. 10.—The city of Waco is playing host for three days to the largest gathering of postmasters ever assembled in the Southwest. The occasion is a joint annual convention of the Texas Postmasters' Association and the Texas Postmasters' League, the latter consisting of postmasters of the fourth-class offices. The program provides for addresses by C. P. Grandfield, first assistant postmaster general, and other representatives of the department of Washington, together with discussions on a wide range of subjects relating to the improvement of the postal service and the duties of the postmaster.

**CIVIL WAR VETERANS
IN MORMON CAPITAL**Forty Thousand Visitors Arrive in
Salt Lake City for Sessions of
G. A. R. and Auxiliaries.

[SPECIAL TO THE GAZETTE.]

Salt Lake City, Utah, Aug. 10.—Today ushered in the forty-third national encampment of the Grand Army of the Republic, with its several affiliated bodies, and from all indications the gathering will go on record as one of the largest and most successful held in recent years. Up to noon today the veterans and other visitors continued to pour into the city and it is conservatively estimated that at least 10,000 strangers are here.

The arrangements for the week were completed this morning. Tonight the formal opening of the encampment is to take place in the great Tabernacle, where 10,000 persons will assemble to listen to welcoming addresses by Governor Spry, Mayor Pratt and others and to responses by Commander-in-Chief Nathan and other officers and prominent members of the Grand Army. Vocal and instrumental music, with performances on the great organ by Prof. John J. McClelland, are to be features of the program.

In connection with the meetings of the Grand Army, there will be held during the week the annual meetings of the National Woman's Relief Corps, Ladies of the G. A. R., National Daughters of Veterans, National Ladies Aid society, National Army Nurses' association, National Association of Naval Veterans, and the National Association of Ex-Prisoners of War.

The meetings and reunions of these various organizations will continue until Saturday. The feature of the week will be the parade of veterans tomorrow, when it is expected that from twenty to thirty thousand men will be in line. Buildings along the line of march are extensively and handsomely decorated for the occasion.

The campfires are to be held on Wednesday Thursday and Friday nights in the Tabernacle, where addresses will be given at each gathering by men of national prominence. Thursday morning will be devoted to business sessions of all the organizations. The last two days of the week have been selected as days for special trips. On each of these days there will be special excursions to the mining camps, to Tropic, Hingham, Park City, the great salt beds, Ogden, Provo, Green River, Salt Lake on the Great Lake, and other points of scenic interest.

Automobile Parties: R. W. Robbins, son of the late Burr Robbins of circus fame, and wife, and Mr. and Mrs. W. H. G. Logan arrived here from Chicago this morning in a touring car and were registered at the Hotel Myers. A Freeport party consisting of Mrs. Jack Pennington, Miss Ella Andrews, and O. E. Tard, Jr., was registered at the same hotel today and a Rockford party consisting of C. A. Alberts, Ray Jones, and Edward Hayes, last evening.

New Orleans, La., Aug. 10.—Storm warnings for the Texas coast were issued this morning. The storm, apparently of marked intensity, is now central over the Gulf of Mexico at the southern end of the mouth of the Rio Grande and is moving northwards. The conditions make it unsafe for ships in the middle and western portions of the Gulf.

**HONOR SOUTHERNERS
AT THE EXPOSITION**Today, "Dixie Day," Given Over to
Visitors at Seattle Fair From
"Dixie Land."

[SPECIAL TO THE GAZETTE.]

Seattle, Wash., Aug. 10.—As a compliment to the southerners who had treated the accredited representatives of the Alaska-Yukon-Pacific exposition visiting the Jamestown exposition with such delightful hospitality, today was set aside as "Dixie Day." Southerners from all parts of the northwest gathered in the exposition grounds today and greatly swelled the crowd of visitors. There was no particular pomp or ceremony connected with "Dixie Day," but it was, nevertheless, voted a genuine success. In the afternoon several brief addresses and in the evening there will be a reception and ball in the Washington state building. On that occasion every southerner attending will be the particular guest of a southerner and a delightful time is anticipated. Thousands of handsome souvenirs have been distributed in honor of the day and the Washington state building was profusely decorated with blooming cotton plants and a large variety of southern flowers.

**CENTENARY OF THE

South American Nation—Expo-
sition in Honor of Event.

[SPECIAL TO THE GAZETTE.]

Quito, Ecuador, Aug. 10.—Today is the one hundredth anniversary of Ecuador's national independence and the whole country is celebrating the day with universal enthusiasm. This city, having been chosen as the place for the international exposition arranged in honor of the celebration, is the center of the festivities with which the nation—the first of the Latin American republics to reach its centennial—observed the beginning of the second century of its independence. The exposition was opened today with appropriate ceremonies and the representatives of the United States and nearly all the European and South American countries were in attendance at the exercises. The United States and Columbia are the only governments which have separate buildings at the exposition, but most of the European nations have large and interesting exhibits.

**ONLY OFFERS SMALL
SUM FOR INJURY**

[SPECIAL TO THE GAZETTE.]

Beloit, Wis., Aug. 10.—Attorney H. W. Adams, who is representing John Newhouse, the Beloit man, whose wife was struck by a Rockford automobile on July 10, has received a letter from the attorney of John Barnes, whom the auto was traced by its license number, acknowledging that his machine caused the accident. The Rockford man offers a small amount in settlement of the damages, but Mr. Adams thinks Mr. Newhouse will not be willing to settle for that amount.

**HIS TESTIMONY IS
AGAINST OFFICERS**Marine Sergeant To Tell How Sutton
Really Met His Death.

[BY ASSOCIATED PRESS.]

Boston, Mass., Aug. 10.—In an interview attributed to Sergeant Arthur Todd U. S. Marine corps published in the Post today it is stated that he recalled before the investigation as to the death of Lieut. James Sutton his testimony would be exactly opposite to that given by Sutton's fellow officers. Todd left early today for Annapolis.

Annapolis, Md., Aug. 10.—When the court of inquiry now investigating the death of Lieutenant James N. Sutton, Jr., opened today, Mrs. Sutton, the mother of the dead marine officer, was recalled to the stand and identified two letters written by her son. Mrs. Rose Sutton Parker, a sister of Lieutenant Sutton, told of interviews in her room at Currier Hall with several young lieutenants. She said Lieutenant Adams told her he committed suicide, that he knew if Sutton had lived, his own life would have been in danger. He said that "Sutton would get me."

**WANTS DAMAGES OF
FIVE HUNDRED NOW**Man Claims to Have Been Injured by
Being Hit by an Auto.

[SPECIAL TO THE GAZETTE.]

Sheboygan, Wis., Aug. 10.—Norman Posack, proprietor of the Wald Cycle Co., has begun suit in municipal court against DeWitt Hines of this city, for \$500, for alleged injuries and for damages to his motor cycle in an accident which occurred on North 8th street on June 10, when Hines ran into him with his automobile. Posack claims that the automobile was being driven in a reckless manner at the time of the accident. He claims that his foot was sprained and that he was otherwise injured to such an extent that he still feels the effects.

Has Strong Dislike
Thomas Wallinde has developed a dislike for decorated plate glass windows since he was arrested for demolishing a large pane of that description in Joseph Hies's saloon, late Sunday evening. He was found guilty and was sentenced to pay the value of the window, \$5.75, the cost of letting thereon, \$3, and the costs of the court, \$1.62, making a total amounting to \$10.37. Wallinde paid, Pen Lee.

Pen Lee has caused much damage in the pea fields in the vicinity of this city, and the crop has been greatly reduced. Large tracts, tributary to the Wisconsin Pea Canning Co., have been abandoned on account of the depredations.

Very Expensive
Three young Kim farmers had a thrilling ride through the country Sunday night, which in the end proved quite expensive. They were arraigned in Justice Schmidt's court this morning in Manitowish and fined \$1 and costs, amounting to \$25.

**SEEKS HEIRS BY
MEANS OF A PHOTO**Reverend W. H. Thomas of La Crosse
Dead—His Heirs Are
Sought.

[SPECIAL TO THE GAZETTE.]

La Crosse, Wis., Aug. 10.—With only an old fashioned photograph taken forty years ago to guide them, a search over two continents is being made for the heirs of the late Rev. W. H. Thomas, D. D., who died suddenly on a Milwaukee train while en route to Milwaukee to attend a syncretic meeting. Mr. Thomas is believed to have one sister living somewhere in Scotland but her name is unknown and the picture is the only clue. The Scotland authorities have asked that it be sent to them. Mr. Thomas left considerable property amounting to which is a library of over 3,000 choice volumes.

Stole Money.
Because his mother and sisters wrote him glowing accounts of their vacation by the seaside, Charles Arnold of New York, pilfered \$4.50 from the cash drawer of a local restaurant where he was employed in order to return to his old home, and as a result was sentenced to ten days in the county jail.

La Crosse Railway.
The final brief covering the points at issue between employers and employees has been submitted by the directors of the La Crosse Street Railway company to the board of arbitration. The sliding wage scale is being argued for inasmuch as it is alleged to be a stimulus to good work, the directors argue that if a substantial increase in wages is given they will not be able to make the five per cent dividend to which they feel entitled after deducting five per cent for depreciation in rolling stock and equipment. The company is in favor of the appointment of a committee representing the employers (not the union) to take up all future grievances of the company. No decision has been reached by the board of arbitration although Chairman Humphrey announces he believes the men will receive some increase in wages.

**ARRESTED ON A
FORGERY CHARGE**Youth Giving Assumed Name of Fred
Miller Tried to Secure Shoes on
Bogus Factory Order.

Just as one of the clerks at the Golden Eagle store finished wrapping up a pair of \$1 patent leather shoes and delivered them to a youth of rather pleasant address in return for an order purporting to have been assigned by the head of a local factory, this morning, Officer John Brown appeared on the scene and placed the customer under arrest, charging him with forgery. The handwriting of the signature and the contents of the note was extremely crude and aroused suspicion at the King & Cowles store where the buyer first tried to make a purchase. When the head of the factory was questioned over the phone, he denied that any such order had come from his hand. Notwithstanding which, the youth brazenly insisted that the order was bona fide and asked that the boss be sent for at once. He gave his name as Fred Miller and broke down completely and confessed his error when the manager appeared upon the scene. It develops that he had been in the employ of the factory for 8 or 9 years and had lost his position for being absent on circus duty. Since that time he had been out of work and funds. As he was a good worker, had never before been guilty of any dishonest act, and on account of a family dispute, a widow and invalid brother were known to be in need of support, the management decided to give him employment again and not press the charge against him. The name he gave was an assumed one.

Its party will make the trip of more than 6,000 miles in a special train, arriving in Spokane on August 10.

Delegates from El Paso and points in New Mexico and Garden City and in Kansas, Omaha and points in Nebraska and Iowa will also come in special trains, and Salt Lake City, Ogden and other cities in Utah will be represented by delegates warranting the running of a special train. Points in southern California will also send representative delegations.

**CLERKS OF CIRCUIT
COURT IN SESSION**Clerks From All Over State Gather in
Cream City at Convention of
Newly-Organized Society.

[SPECIAL TO THE GAZETTE.]

Milwaukee, Wis., Aug. 10.—The first annual meeting of the Wisconsin Circuit Clerks' association, which was organized a year ago, began here today and will continue over tomorrow. Nearly every county of the state is represented. Legislation to make uniform the rules for conducting clerks' offices is the chief topic slated for discussion. A movement to secure a law allowing the clerks to hold office for four years instead of two will also receive attention.

Four Up for Drunkenness: There were four pleas of guilty to charges of drunkenness in municipal court this morning. Thomas Joyce and Byron Lewis paid fines and costs of \$2.10 and \$2.10 respectively. George Owen and James Kollar were unable to negotiate \$2.10 each and went to jail for seven days.

POOR POLICEMAN UNLOVED UNSUNG

Views of Fire Marshal Horan of Chicago Touch a Responsive Chord in Local Force.

Nobody loves the poor policeman, according to Fire Marshal James Horan of Chicago. In discussing the present vacancy in the executive office of the police department of the metropolis one day this week he indulged in the following bit of philosophy:

"The position of police chief would sap the strength of the strongest man alive. It means the finish of any one, after a few years of brain-fogging work. Whenever hours of tediousness, or whatever they are, are piled on and nobody knows they exist."

"Everybody hates a policeman. Why, I even hate them myself. When I was a boy, I remember my boyhood days and just think that I would like to give him a dig."

"The police of Chicago, and, in fact, of most cities, are objects of hatred to the public. This hatred is acquired largely from long-remembered injuries and from traditions based on similar injuries of others. Then, again, keeps the ball rolling."

"The seat of much of this hatred is to be traced to the boy, who loves swimming and baseball, but finds the enemy to the satisfaction of his love of these sports in the police."

"They chase him from ball ground to ball ground, and when he grows up he has acquired a hatred for the police that is not easy to get rid of."

"As for myself, I cannot forget that when we boys had a swimming hole at Twenty-seventh and street we were driven from it to Twenty-seventh street and from there to Thirty-fifth street. I don't think we young fellows ever offended anybody's vision much, but away we were driven, and I know that I hated every policeman I then just like sin."

"To sum up, then, the position of chief of police is a thankless job, with such sentiments prevailing against the men under him."

"The department is the subject of more criticism than any other in the city. Under any and all circumstances the police are the subject of criticism, and when a chief steps down to give place to another he is not only down but he is down and out."

"The views of Fire Chief Horan as set forth in the Tribune interview, touched a responsive chord among the members of the Jamesville department. 'It just about hits the nail on the head for all of us,' said Chief Appleby. 'We are criticised if we do and condemned if we don't. Half the people condemn us for not being severe enough in carrying out our duties and the other half give us hell for being too strict and too harsh. The only way in, I guess, is to keep an even keel and doing our work as best we can, while we stay. One thing is certain—Fire Chief Horan has the right dope on the attitude of the public toward the police department heads and officers.'"

HOLDS PHONOGRAPH DISCS

Device Fastens to Wall and Holders Swing In and Out.

Another type of holder for phonograph records in the wall bracket designed by a Louisiana woman. The advantage claimed for this holder is that it does not take up the room of a cabinet yet keeps the records as free from dust as the most airtight of wooden cases. The device consists of a rod fastened to the wall so that it maintains a vertical position. Projected to this rod are holding plates, so arranged that they swing back and forth and are out of the way when not needed. Each of these plates is a little larger

LIDA KEEP OFF THE DUST. A phonograph record in this holder is completely airtight. It is held in place by a device which allows the record to swing in and out of the holder. The holder is mounted on a wall bracket and is designed to keep the record free from dust and other contaminants. The device is simple and effective, and is claimed to be a great improvement over other types of record holders.

SHAMPOO SHIELD
Keeps Face Dry and Permits the Wearer to Breathe Freely.

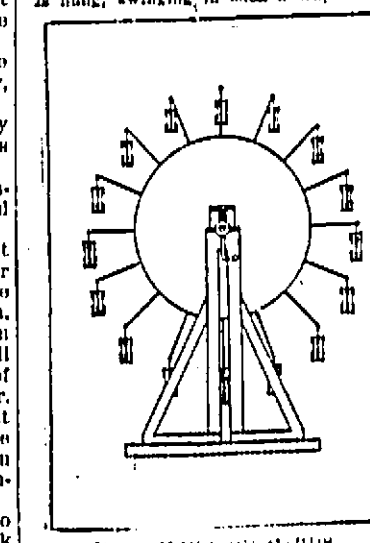

Just at present the shampoo shield designed by a New York man and shown in the illustration, is quite fashionable. It is much like the helmet of a knight in armor, and will doubtless be popular with the ladies. It will also find favor with any other person who has ever gasped and spluttered during the process of a shampoo while the soapy water ran into his or her eyes and made him

NO SOAP GETS IN EYES. This shield is of elliptical shape to fit the contour of the head. It is placed on the head like a hat, with the difference that there is no crown and the hair comes through the top. The shampoo can run the head of the subject vigorously while the latter may be as much at his ease as if he were merely having his head combed. The face of the shield has a mesh of fine wire, which is kept dry, except for a few drops that may be held down inside of the rim of the shield. This device will eliminate the annoying features of the shampoo to persons who are short of breath.

POST-CARD STAND
All Views Seen Practically at a Glance by Revolving Wheel.

In view of the present widespread craze for postcards in various forms and for various uses the invention by a Texas of a postcard stand becomes a matter of public interest. This stand is in the form of a wheel, resembling a Ferris wheel, and is so constructed that by revolving the wheel the cards in it can be seen at a glance. It has a multiplicity of spokes and to each spoke a card rack is hung, swinging in such a way that it

NO SOILING OF CARDS. Each of these racks holds a number of cards, and by revolving the wheel and by preferably in front of the wheel and revolving it the prospective purchaser can see all the different varieties on sale. An apparatus of this kind is not only a great convenience to those who buy postcards, but it is a money saver for those who sell them, as it prevents the soiling of so many cards, the inevitable result when the cards are merely stacked about.

Be Superior to Small Worries. Cultivate the feeling that your spirit can rise above small worries. If you feel superior and attain the lofty air you will save yourself lots of friction. Groveling is hard on the knees.

Hardly Feasible. Lately a manager of a New York theater received a play in which one of the directions read: "Enter the villain, smelling of tobacco." Judge.

LIMA.

Lima, Aug. 10.—A much-needed rain came Monday morning and everyone wears a pleased look.

Explains Assault on Consul. Washington, Aug. 10.—The assault on William H. MacMaster, American vice-consul at Cartagena, Colombia, on July 27, in which that official was seriously wounded by two natives, came from persons by motives, as there is no animosity against the United States among the inhabitants of the city. This statement is made by the governor of Cartagena in a report to his federal government.

**"UNCLE JOE" IS ACCUSED
OF KILLING FORESTRY BILL**

Delegate at Irrigation Congress De-
clares Appalachian Measure Was
Defeated by House Speaker.

Spokane, Wash., Aug. 10.—"The gov-
ernment of the United States is sitting
idly while millions of dollars' worth of
natural resources are going to waste."

"The Appalachian forestry bill,
which passed the house and senate
twice, was killed by Uncle Joe."

"Notwithstanding the dispensary
system in South Carolina, there is too
much water there."

E. J. Watson, commissioner of the
South Carolina department of agricul-
ture, commerce and industry, before
the National Irrigation Congress ut-
tered the foregoing with telling effect.

He urged that the government take
control of such rivers, east and west,
as might be navigable, for the purpose
of making them waterways for smaller
battleships.

James J. Hill, chairman of the board
of directors of the Great Northern
railway, who was to have spoken at
the afternoon session, was not present.
President George Burrows made his
annual address.

"The question of a next meeting
place has narrowed down to a fight be-
tween San Francisco and Pueblo, Col.
Illinois probably will throw its
strength to San Francisco. Among
other cities mentioned is El Paso.

The new constitution providing a
business-like basis for the congress
was adopted. A clash between the nat-
ural resources preservation policies of
the Roosevelt administration and so-
called "private interests" got its first
impetus when Mayor N. S. Spratt of
Spokane charged that private capital
is being used to impede the progress
of the government in its work.

A telegram was received from Presi-
dent Taft expressing his regret at not
being able to be present. He expressed
deep sympathy with the cause.

Danville, Ill., Aug. 10.—On his re-
turn to his home in this city Speaker
Cannon dictated the following state-
ment:

"If my constituency is as willing as
I am, I shall stay in the house of rep-
resentatives, shall continue in public
life and shall keep on representing the
Eighteenth district in congress."

When questioned further regarding
his next race for congress Mr. Cannon
intimated that he expected no oppo-
sition from his own party and there is
hardly any question but that he can
defeat any candidate the opposition
may nominate. Discussing the tariff
Mr. Cannon said:

"I believe it is a good measure. I
ask the people to wait until it has
been tested before condemning it. I
believe congress has kept the pledges
made by the Republican party at the
Chicago convention.

ARCHBISHOP KEANE TO RETIRE.
Head of the Archdiocese of Dubuque
Will Give Up Duties.

St. Louis, Aug. 10.—That Archbish-
op John Joseph Keane of the Roman
Catholic archdiocese of Dubuque, is
to retire from active duty August 18,
when a coadjutor is to be recom-
mended, is the official news received
here from St. Paul, Minn., by Rev. D.
H. Phelan, editor of the Western
Watchman, a semi-official church pub-
lication. Ill health, it is stated, is the
cause of the venerable prelate's ac-
tion.

The irremovable rectors and con-
sultors of the archdiocese have been
summoned to meet August 18 at the
archiepiscopal residence in Dubuque
and suggest names for a coadjutor.
The following day the suffragan bish-
ops are to rally or change the list.
The final selection will be made in
Rome.

JANE ADDAMS FOR PRESIDENT.
Chicago Woman Boomed for Taft's
Job by Suffragettes.

Boston, Aug. 10.—Jane Addams, on
a platform advocating equal suffrage,
is the first person to be seriously put
forth as candidate for president of
the United States in 1912. This city
is to be the campaign headquarters
and all the energy, the persistency,
and the originality for which the suf-
fragette movement has come to be
distinguished, will be directed to ad-
vance her candidacy.

"The best national housekeeper,"
will be the slogan that will arouse
the supporters of Miss Addams. Miss
Alice Stone Blackwell has come out
in support of Miss Addams for presi-
dent, while suffragettes are arranging
for a mass meeting to put into boom
sentiment for her.

PRINTERS HOLDING CONVENTION.
Delegates and Visitors at the First
Session Number 1,400.

St. Joseph, Mo., Aug. 10.—The fifty-
first convention of the International
Typographical union opened here with
President J. T. Lynch and all the in-
ternational officers present.

An address of welcome was deliv-
ered by Mayor A. P. Clayton, which
was responded to by Mr. Lynch.

About 1,400 delegates and visitors
are in attendance.

Elaborate entertainment during the
week has been arranged by the local
union and citizens.

Adolphus Busch's Health Improves.
Wiesbaden, Germany, Aug. 10.—
Adolphus Busch, millionaire brewer of
St. Louis, will be well in about two
weeks. So predicts Prof. Fraenkel,
a famous physician, who is attending
Mr. Busch for a severe cold, at the
latter's villa eight miles northwest of
Wiesbaden.

WILL INSPECT THE RHINE.

Congressional Commission Goes to Eu-
rope for Waterway Information.
New York, Aug. 10.—Eight mem-
bers of the joint congressional com-
mission on waterways sailed from
New York today for Europe. They
will remain abroad for two months, de-
voting much of the time to inspection
of the Rhine, the only river in Europe
which possesses many features com-
mon to the Mississippi. Because of
the extra season the commission will
be able to present only a preliminary
report to congress in Dec.

The party that sailed today in-
cluded Senators Burton, Gallinger, Sim-
mons and Smith (Mich.) and Repre-
sentatives Stevens, Sparkman, Alex-
ander and Wanger. Senators Lorimer
and Pike may join the other mem-
bers of the commission at Strasbourg
early in September.

Kaiser Honors Elliot.
Berlin, Aug. 10.—Emperor William
conferred the Crown order of the first
class on Charles W. Elliot, former
president of Harvard university, and
II. Yamamoto of Japan; the Crown
order of the second class on Sir Cas-
par Purdon Clarke, director of the
Metropolitan Museum of Art, New
York, and Hugo Heringer of New
York, and the Red Eagle of the third
class on Edward Robinson, of the Me-
tropolitan Museum of Art.

Strike Without a Warning.
Fort William, Ont., Aug. 10.—With-
out having made formal demands upon
the company, nearly a thousand freight
handlers in the sheds of the Canadian
Pacific railway walked out and freight
movement in Fort William is at a
standstill.

SIGNS ALABAMA "DRY" BILL.
Women and Opposing Senator See
Governor Attach Signature.

Montgomery, Ala., Aug. 10.—Gov.
Comer signed the Carmichael prohibi-
tion bill in the presence of Mrs.
J. R. Mell, president of the Alabama
division of the Woman's Christian
Temperance union, and other women.
The signature was affixed almost im-
mediately after the house had ratified
a minor amendment.

An odd coincidence was that Sena-
tor Hamburger of Mobile was the only
member of the legislature present.
He had gone to the executive office
on other business. Senator Hamburg-
er was one of the two senators who
voted against the bill, and the only
senator who spoke against it.

Evelyn Thaw Wants \$500,000.
New York, Aug. 10.—Statements
made at Poughkeepsie by Charles
Morechauser, attorney for Harry K.
Thaw, indicate that the Thaw family
will oppose any demand for a settle-
ment made by Evelyn Nesbit Thaw.
Mr. Morechauser said that the young
wife was demanding a very large sum
—somewhere around \$500,000.

the latest models. Come in and see the new designs,
with the long 45-inch coat and the plaited skirt.

Under the new tariff hosiery will advance from 20
per cent to 30 per cent; the good old values will soon be
a thing of the past. We have anticipated this condition
and own over twenty cases of the best staple numbers,
which will be continued at the old prices as long as
they last.

BORT, BAILEY & CO.

EVER watch a farmer pulling stumps? How does he do it, hitch one team facing
one direction, another facing the opposite? No! What he does is to hitch all his
horses facing one direction, use every improved device he knows about, and then
have them pull.

And when they all pull steadily, at the same time, in the same direction, the stump
comes.

Sales are like stumps. They don't come easy. They've got to be pulled. And it
takes a steady pull, all together, in one direction, to get them.

Mr. Dealer, are you pulling in one direction all the time? Or, are you scattering
your efforts, first giving a yank here, than a shove there?

Or are you using the one best medium in Southern Wisconsin, the one that reaches
most everybody? Repetition and reiteration are a part of every good advertiser's creed
and his first lesson teaches him NOT TO SCATTER his shot.

FINE DENTISTRY

If you have lost a tooth I can replace it in a most artistic manner. I get a very close match in color and size.

If you need a new set I can give you the benefits gained through the hard knocks of 20 years' experience in fitting artificial teeth.

A man ought to learn something in that time in making teeth.

Experience is costly experience. You don't want to go through that ordeal.

I can help you out of your dental troubles.

FISHING WITH SET LINE COST \$55.60

Paul Schulte and William Geske of Edgerton Were Arrested by Wardens at Koshkonong Today.

When fishing in the good old-fashioned way, Paul Schulte and William Geske of Edgerton, who have been camping on the southern bank of Lake Koshkonong, resorted to the use of a set line carrying 200 baited hooks. Deputy Game Warden Peter Drafiel of Rock county and Nels Johnson of Madison pounced upon them when they were hauling in the catch at seven o'clock this morning; marched them to Edgerton, and had them before Judge Elfield in the municipal court before the noon bell struck. Both pleaded guilty to the charges and the court levied the minimum fine and costs, amounting to \$27.80 each, with the alternative of 30 days apiece in the county jail. The fines and costs were paid in full. It was a "case of take a chance or go home," said Schulte. "I guess you boys have been hanging around too near those shanties," retorted the court.

NARROW ESCAPE FOR THOSE IN THE WAY

Runaway Horse Just Missed William L. Myers in Its Mad Flight.

In its mad flight down East Milwaukee street about three o'clock this afternoon a horse attached to a buggy ran onto the sidewalk in front of the Myers theatre and continued its flight down the walk to the front of the Myers Hotel harbor shop where it was stopped. P. L. Myers was standing in front of the theatre entrance and only escaped being hit by the animal by jumping a ditch where plumbers were making repairs. Roy Palmer was at work in the ditch and the horse nearly fell on top of him, the wheels catching on the excavation. Tom Collins, who was standing beside Mr. Myers, also jumped and thus escaped. Strangely to say the carriage did not hit any of the stands along the walk and no one was in the way. The horse started from North bluff street, it belonged to Frank Fisher, who was in a house when the animal started and was surprised to find it missing when he came out.

OBITUARY.

Daniel Zemke

Daniel Zemke, an old resident of this city, died at his home, 552 Kings old street, at 2:30 o'clock this afternoon, after an extended illness. He was born in Germany, December 12, 1854, and came to this country in 1870 and has resided here since. He leaves to mourn his loss three daughters and one son. They are: Mrs. G. Schuchman of Scribner, Nebraska; Mrs. A. C. Kruger and Emma and William Zemke of this city.

Notice of the funeral will be given later.

Mrs. John Barr

The obsequies for the late Mrs. John Barr were held this afternoon at two o'clock, being conducted from D. Ryan & Sons' undertaking parlors by Rev. L. A. McIntyre. The services were largely attended and the floral emblems sent by loving friends were numerous and handsome. Mrs. Barr and Mrs. Stark were the sisters. The remains were held at rest in Oak Hill cemetery. The pallbearers were E. S. Davis, E. L. Robinson, H. L. Hilsman, and John Fulton.

Besides a husband and four children, Mrs. Barr is survived by two sisters and three brothers: Mrs. Joseph Bourke, Mrs. James Whalen, and James, Matt, and Will Alcon.

STATE WILL HAVE OWN XMAS STAMP

Wisconsin Anti-Tuberculosis Association Will Sell Stamp of Its Own This Year.

A prize of \$100 is offered by the Wisconsin Anti-Tuberculosis association for the best design for a "Christmas stamp" to be sold in the fall to raise money for the purpose of continuing the fight against tuberculosis in Wisconsin. These stamps are in the form of a holiday greeting sticker and are placed on letters, gifts, packages, etc. Drawings must reach the association headquarters at room 35, 121 Wisconsin street, Milwaukee, by September 1.

Last year the association raised money by selling "Red Cross Christmas stamps." These had to be purchased from the National Red Cross society, Washington, D. C. which involved considerable expense and delay.

This year the association will issue its own stamps. They will be exclusive, a novelty, and a "Wisconsin stamp for Wisconsin people." The price will remain the same—one cent each.

Bodies carrying a neat holiday greeting, the stamps are an educating factor, reminding the recipient of his duty in the battle against the dread white plague.

Drawings should be 3x4 1/2 inches, to be reduced to 1x1 1/2 inches, pasted on a card 7x10 inches. Name and address of sender on reverse. Any number of drawings may be submitted by one person. The following words must be used in some way: "Wisconsin Christmas Stamp"; "Merry Christmas, Happy New Year"; "W. A. T. A., 1939." An appropriate symbol may be used. The color scheme is red, green and white. For further particulars address Wisconsin Anti-Tuberculosis Association, room 35, 121 Wisconsin street, Milwaukee.

Vurpillat's Success In Janesville—All State-ments Proven

Internal Parasites Are Undoubtedly Responsible For Much Ill Health—Some Interviews on the Subject—Office at 509 W. Milwaukee St. Credited.

The remarkable results which are accomplished in Janesville by Vurpillat have become a topic of universal interest during the past week. Reports that preceded his visit to this city told of the cure of the man and his wife. But the man and his wife did not attract wide and general attention until the end of his first week here. Then the interest in his preparations became very noticeable and his steadily gathered headway until his remedies are now sold in large quantities and his headquarters is a most interesting place in which to spend a half hour. People are coming from all parts of the city to see him. The young man and his wife are surrounded by swarms of humanity from early until late afternoon. They have been accustomed to tell what the Vurpillat remedies, others too by the medicines. Perhaps nothing has done more to arouse this interest than Vurpillat's statement concerning internal parasites, or tape worms, as they are commonly called. At the commencement of his visit to this city he claimed that those creatures were responsible for much of the ill health of this generation, he claimed that a large percentage of all chronic, indigestion trouble was caused by them. He stated that his "New Discovery" would prove this theory to be correct as it would remove many of the city.

These statements seem to have been completely verified. During the past week a number of people who have been taking the Vurpillat preparation for some form of stomach trouble have been relieved of one of these parasites. In consequence Vurpillat and theories have been growing into greater prominence each day.

The statements made by some of Vurpillat's callers who were interviewed indicate that persons who claim that Vurpillat is merely a fortune teller, have not looked into the facts. The statement of "I have suffered with rheumatism in my left arm for some time to such an extent that I couldn't move it without pain. After one application of the 'New Discovery' I was able to bend my arm without any inconvenience."

The office at 509 W. Milwaukee St. is open from 10 a. m. until 4 p. m. where consultation and examination are free to all.

A good program has been arranged for tonight and no doubt the usual large crowd will be present to witness the same.

Making Money On the Farm

VIII.—Potato Culture

By G. V. GREGORY,
Author of "Home Course in Modern
Agriculture"

Copyright, 1909, by American Press
Association

WHETHER grown for market or for home use only, it is important that the potato crop be made to yield as much as possible. With the right kind of care fields of 200 to 500 bushels to the acre can be obtained, making this one of the most profitable crops that can be grown. Even with the most careless treatment the tuber frequently yields most generously.

The potato is very particular in its soil requirements. A rich sandy loam is the best soil. Not all farms have such a soil, but almost any soil can be so prepared as to make a fairly good potato patch. Two things are essential, mellowness and plenty of moisture. Clay is too heavy, and sand dries out too rapidly. Soils which contain too much clay or too much sand can be greatly improved for the production of potatoes by the addition of humus. The ideal way to prepare a field for potatoes is to seed it to clover for at least a year, mow it heavily, plow it up and plant it to corn. In the fall the corn can be cut for silage or fodder, so that it can be plowed before winter. The plowing should be fairly deep. Two diskings and a harrowing or two the following spring make an ideal seed bed for potatoes.

Potatoes are not raised from seed, but from the swollen underground stems that we call tubers or potatoes. Any piece of a tuber that contains an "eye" will grow and produce more of its kind. A potato vine grown from a piece of a tuber is really not a new plant, but part of the old one. If outside conditions are the same the plant will be the same and produce the same kind of a crop. There is much less tendency to vary in those propagated in this way than in those raised from seed.

Large Versus Small Potatoes.
Because of the fact that the potato is not a seed it has been claimed that small potatoes would produce just as good crops as large ones. Growers often sort out and plant the tubers that are too small for market. The outcome of four or five years of such selection almost always means a decreased yield. If the potatoes planted were small only because they did not have a chance to develop they would produce nearly as good results as larger ones from the same hill. If, however, they were small because they came from a hill of tubers all of which were naturally small they would produce naturally small potatoes like themselves. For this reason it is not safe to plant the small tubers. Another important point is that there is not enough food material in a small potato to give the sprout the kind of a start that it needs to produce a good yield. It is the stocky, vigorous hills that are full of large potatoes when digging time comes. The start the plant gets while it is first making its way to the surface of the ground largely determines the vigor with which it will continue to grow throughout the season.

The experience of most potato growers is that it is best to plant medium sized tubers, about the size of a hen's egg or larger, cutting each one into four pieces. In experiments that were

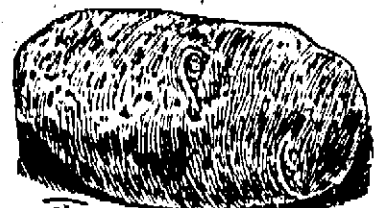

FIG. XV.—WELL-SHAPED SEED POTATO.

conducted along this line quarters gave a yield of seven bushels to the acre more than two eye pieces and fifteen bushels more than one eye piece. The seed potatoes should be kept in a dark place until planting as much as possible. Now sprouts will grow if the old ones are broken off, but they will not be as strong. If the seed is at all scabby it should be treated before planting. This is done by soaking the tubers for two hours in a solution of one pound of formalin to forty gallons of water. Afterward the potatoes should be spread out to dry and then cut. The cutting should not be done until just before planting, as otherwise they will shrivel and lose some of their vitality. The plan of getting the seed potatoes cut several weeks or even days before planting is not to be commended. Even if the seed thus prepared is kept in a dark cellar the starch part of its substance, and the vitality of the seed may be impaired.

Planting.
Early potatoes should be planted as soon as the ground can be worked. The later varieties, which comprise the bulk of the crop, should be planted about corn planting time or a little later. In the corn belt it is most convenient to mark off the rows with the corn planter. Where land is high and it is desired to work it to its fullest capacity the rows may be as close as tared feet. Where ten or more acres are grown a potato planter will soon pay for itself. Where the acreage is smaller than this two or three neighbors can often combine to purchase such a machine.

where manure pitting is practiced the rows should be opened with a stirring plow to a depth of four to six inches. The practice of dropping the tubers in a cultivator track and covering them lightly is responsible for many of the low yields. Potatoes send up a strong sprout that is able to penetrate six inches of soil easily, and the roots need to be well down in the moist earth. After the tubers are dropped the stirring plow may again be brought into use to cover them, of a disk cultivator may be used. The main thing is to get them covered deeply. After covering two or three harrowings should be given to level the ground and kill any sprouting weeds.

The cut tubers should be dropped from twelve to sixteen inches apart, one in a place. The amount of seed to use per acre will depend on the price. If seed potatoes are not too expensive it pays to be liberal with them. Where medium sized potatoes are cut into quarters and dropped every fifteen inches in rows three and one-half feet apart twelve to fifteen bushels per acre will be needed.

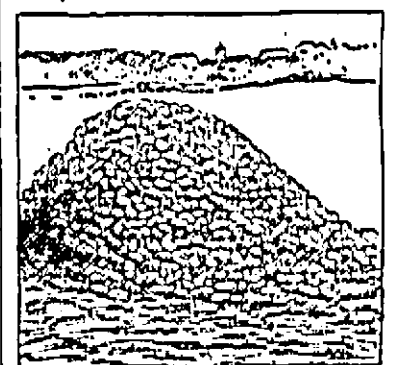

FIG. XVI.—POTATOES LEFT IN FIELD.

As good a yield as drifting, provided the drilled potatoes are kept free from weeds. The checked potatoes can be cultivated both ways and kept clean with but little hand labor and will yield more than a weedy patch planted twice as thick. The feasibility of the plan depends entirely upon the relative cost of land and labor.

A good harrowing after the plants are two or three inches high will destroy many weeds and loosen the dirt in the row. Deep planted potatoes are not injured by such a harrowing. A few days after this the cultivator should be started and the field cultivated once a week or oftener until the blossoms appear. It pays to hoe or pull any weeds that come up in the rows. No one thing will reduce the yield of potatoes more than weeds. The ground should be left nearly level at the last cultivation. Deep planting makes hilling unnecessary.

Spraying For Insects and Diseases.
The potato beetle is the one serious insect enemy of the potato crop. The most prevalent disease other than scab is blight. This affects the leaves, causing them to turn black and curl up. Both blight and beetles can be readily controlled by spraying with Bordeaux paris green mixture. This is made as follows: Four pounds copper sulphate, four pounds fresh lime, four ounces paris green and fifty gallons of water. Dissolve the copper sulphate in twenty-five gallons of the water and the lime in the rest. Then pour the two solutions together. Make the paris green into a paste with a little water and stir it into the mixture. It pays to have a good hand sprayer to apply this solution or a power machine if many acres are grown. A hand sprayer can be bought for \$3 or \$4. If equipped with two nozzles so as to take two rows at once it will not take more than an hour to go over an acre. The entire expense, including the labor, will be repaid several times over by the increase in yield. Three or four sprayings will be sufficient, starting about the time the plants are six inches high and continuing at intervals of a week or ten days until they are in bloom.

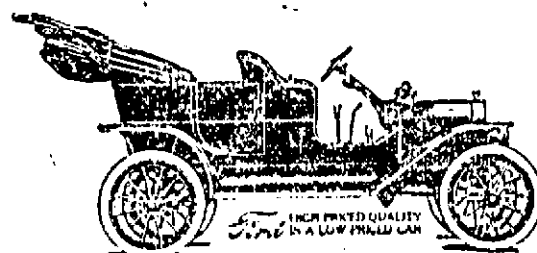

Digging the Crop.
Where a large acreage of potatoes is grown or where several neighbors each raise a few acres every year, a digger is a paying investment. It leaves the tubers on top of the ground in good shape to be picked up and gets practically all of them. Where only a few are grown they can be forked out, but this is a slow job. The most common practice is to plow them out. By plowing them up after the plow, then harrowing twice and picking up after each harrowing, few will be left. If the field is so located that the hogs can be turned in on it, they get all that were missed. As soon as dug, which should be before severe freezing weather, the potatoes should be piled up and covered with straw and dirt. Here they may be left until the ground begins to freeze, when they may be put in the cellar or hauled to market. If the pile is on a well drained place it may be covered with a foot to eighteen inches of straw and as much dirt and safely left till spring. There are many potato growers, especially those of foreign extraction, who never keep their crop in any other way. While the dry indoor method has numerous advantages, such as readiness for use in all weather and convenience of handling, there is much to commend the outdoor storage plan. There are even those who contend that the flavor of the tuber is only to be maintained by storing it in the pit.

FORD CARS WIN

ENDURANCE RUNS, HILL CLIMBS, SPEED CONTESTS,
All look alike to the FORD—Always a winner.

In June Was Held Greatest Endurance Contest

That the country has ever seen. A race of 4100 miles from New York to Seattle. Pitted against the Ford were several 40-50 H. P. high priced cars, but the Ford won the race.

At hill climbing in Minneapolis it was demonstrated all during the last winter and summer that no car selling under \$1,750 has any business with the Ford.

At Mayville, N. D., on July 4th, the Ford T Roadster had a matched race with a Buick, Model 10, and easily won the race.

At Fargo during the past week when the Interstate Fair was held—automobile races were one of the main attractions and the "cracks" of the Northwest gathered to compete for the prizes and the way the Model T Ford cleaned them all up, demonstrated its great superiority. Day after day the same old story, Ford first, Ford second, and the others "also ran."

Ford Wins in Following Events at Fargo:
Tuesday—5-mile race, cars \$1,000 or under; winner Ford, Buick second.
Tuesday—5-mile race, cars \$1,500 or under; winner Ford, Ford second, Chalmers-Detroit third.

Wednesday—5-mile race for touring cars, selling at \$1,500 or under; winner Ford, taking first and second place.

Thursday—Race for cars selling for \$3,000 or under; winner Ford, beating out E. M. F., Chalmers-Detroit and several other high priced slow going cars.

From the above you will see that they all look alike to the Ford, whether in its own class or in the class of others selling for several times as much money.

Introducing New Fashions in Fall Suits

OUR initial showing of Fall Suits is now being made. The present emphasis is upon our specialty, the strictly tailored suit, although the more dressy model is well represented.

Fabrics range from hair-surfaced diagonals to the softest of imported broadcloths and serges.

You will find the practical features have again been combined most successfully with little touches which make for that novelty an exclusiveness which invariably marks the Big Store's garment.

Styles are extra length 2 and 3 piece garments, semi-fitting empire styles; plain tailored, fancy weaves, panel backs and fronts, box pleats, slash effects. Colors are hunters' green, different shades of smoke, taupe, new drabs, newer browns and wisteria. In trimmings, jet has first call, with black soutache braid and Bengaline a close second, to buttons cloth covered with jet centers.

The Man From Brodney's

By GEORGE BARR M'CUTCHEON

Copyright, 1908, by Dodd, Mead & Co.

"I'm sure I don't know. I had dinner with Mrs. Browne in her room. I fancy he's off attending to the guard. I haven't seen him."

"Nice chap," remarked Deppingham, "but that he now speaking to Agnes out there?"

Genevra looked up quickly. A man's voice came in to them from the balcony, following Lady Deppingham's soft laugh.

"No," she said, settling back calmly. "It's Mr. Browne."

"Oh," said Deppingham, a slight shadow coming into his eyes. "Nice chap, too," he added a moment later. "I don't like him," said she, lowering her voice.

"I've no doubt Agnes is as much to blame as he," said his lordship at last.

"Why don't you marry him?"

"She's made a fool of more than one man, my dear. He rather likes it."

"He's behaving like a brute. They've been married less than a year."

"It really doesn't amount to anything, Genevra," he argued. "It will blow over in a fortnight. Agnes's naves doing this sort of thing, you know."

"I know, Deppy," she said sharply. "But this man is different. He's not a gentleman. Mr. Skaggs wasn't a gentleman. Blood tells. He will boast of this flirtation until the end of his days."

"Agnes had dozens of men in love with her—really in love," he protested feebly. "She's not—"

"They've come and gone, and she's still the same old Agnes, and you're the same old Deppy. I'm not thinking of you or Agnes. It's Drusilla Browne."

"I see. Thanks for the confidence you have in Agnes. I dare say I know how Drusilla feels. 'Pro-tem' had a bad turn or two myself lately, and—"

"But never mind. By the way, what does Chasie say about it?" he asked suddenly.

She started and caught her breath. "Mr. Chasie? He—he hasn't said anything about it," she responded lamely. "He—he's not that sort."

"Ah," reflected Deppingham, "he is a gentleman."

Genevra flushed. "Yes, I'm sure he is."

THUMPING HEADACHES.

Many Janesville Women Have Them, But Few Know the Real Cause.

Dull, thumping headaches, Sick, prostrating headaches, Dizziness, whirling, blind headaches—Point to disorders of the kidneys. Tell of uric poisons in the blood. Narcotics may ease the pain, but won't cure the cause.

Don't's Kidney Pills cure the kidneys. Remove uric poisons, purify the blood. Banish headache, backache, urinary ills.

Here's Janesville testimony to prove it.

Mrs. Emilio Hall, 418 S. Franklin St., Janesville, Wis., says: "I suffered severely from pain in the small of my back for months. My head also ached at times and later the secretions from my kidneys began to pass irregularly. I was feeling miserable when someone told me to try Don't's Kidney Pills and I procured a supply from the People's Drug Co. After using two or three boxes I was completely cured. I hope many other persons who are suffering from disordered kidneys will try Don't's Kidney Pills and be convinced of their merit."

suffer for his presumption. Presumptuous? In what way had he offended? She put her hands to her eyes, but her lips smiled—smiled with the memory of the kiss she had returned.

"What a fool! What a fool I am," she cried aloud, springing up resolutely. "I must forget. I told him I couldn't, but I can—I can." Halfway across the room she stopped, her hands clinched fiercely. "If—if Karl were only such as he!" she moaned.

She went to her dressing table and resolutely unlocked one of the drawers, as one would open a case in which the most precious of treasures was kept.

"It was so silly of me!" she muttered. "I shall not keep them for him." The drawer was partly filled with cigarettes. She took one from among the rest and placed it in her red lips, a reckless light in her eyes. A match was struck, and then her hand seemed to be in the clutch of some invisible force. The light flickered and died in her fingers. A blush suffused her face, her eyes, her neck. Then, with a guilty, ashamed, tender smile, she dropped the cigarette into the drawer. She turned the key.

"No," she said to herself; "I told him that I was keeping them for him."

TO BE CONTINUED WAVE OF REFORM SPREADS TO TREASURY DEPARTMENT

MacVeagh Starts Probe to Ascertain What the Government Employees Are Doing.

Washington, Aug. 10.—Employees of the treasury department, who outnumber those of all other branches of the government, are on the anxious seat because Secretary MacVeagh has started a reform wave which promises to be more sweeping than those in the other departments.

Before leaving the city for his summer home in Dublin, N. H., Secretary MacVeagh appointed the three assistant secretaries as a commission to work out the reform. Assistant Secretary Norton was made chairman.

Cards have been sent to every employee and to every chief of a division. Each chief will make a report concerning his employees and each employee will make a report concerning himself or herself. The cards cover a host of subjects, including the quantity and quality of work performed by each employee and the character of appointment under which one labors.

It is not anticipated that there will be a great saving immediately in dollars and cents, but it is believed that it will result in the introduction of labor-saving economies and that some practical theory of promotions may be worked out.

Many appointees of the treasury department obtained their places through political influence and in their behalf promotions have been urged, gently to the annoyance of the officials.

WANT QUARTER FOR ONE CENT.

Lincoln Pennies Held at Premium on Juvenile Curb.

Washington, Aug. 10.—The supply of the new Lincoln pennies, bearing the three initials of the designer, has been exhausted so far as distribution at the treasury department is concerned.

Immediately the bulls of the juvenile curb market outside ran up the price. From three for a nickel the figure jumped to two for a nickel, a nickel a piece, four for a quarter, and a dime a piece. Some asked as much as 25 cents each and refused to take less.

Engineer Is Exonerated.

Washington, Aug. 10.—Civil Engineer A. J. Monocal, U. S. N., has been exonerated by the court of inquiry which recently met at Boston to investigate criticism of his administration while assigned to duty at the Pensacola, Fla., navy yard.

GREEK FLAG WAS TAKEN DOWN

PROTEST BY POWERS CAUSED LOWERING OF EMBLEM IN CRETE.

TURKISH WAR SCARE OVER

Friendship Expressed in Reply to Note from Porte and Danger of Conflict Over Possession of Island Seems Passed.

Canoe, island of Crete, Aug. 10.—Following the protests of the four protecting powers, the Greek flag which was raised at the Cretan military barracks July 27, has been lowered and the danger of war between Greece and Turkey because of the incident seems to be over.

Greece Replies to Turkey. Athens, Aug. 10.—The Greek government handed to the Turkish minister a formal reply to the Porte's note of several days ago which asked Greece to express her disapproval of the annexation agitation in Crete and formally to declare that she had no ambitions regarding the island.

The reply is a lengthy document. It protests formally against the complaints contained in the Turkish note and gives instances of Greece's constant endeavor to maintain frank and friendly relations with Turkey and to draw closer the bonds uniting the two countries. It recalls the enthusiasm with which the Greek element in Turkey worked for the triumph of the constitutional regime there and points out that had Greece cherished the designs attributed to her she would have tried to profit by the trials and difficulties against which the new Turkish government has been contending. Instead, the note declares, Greece has done and still wishes to do all in her power for the appeasement of Turkey and for peace.

Will Let Powers Decide. Also in the Cretan question, the note continues, the Turkish government itself has several times had the occasion to proclaim that the conduct of Greece has been frank and loyal. Then, declaring that Greece can only leave the question of Crete to the protecting powers, and conform to the decision, the note repeats the assurance that Greece, being in no way implicated in the annexationist movement in Crete, will preserve the same correct and loyal attitude that she has in the past. In conclusion the note says:

"We trust that these frank explanations will dissipate all misunderstandings and help to inaugurate an era of cordial and loyal relations between the two countries and to their mutual advantage."

TARIFF HITS RACE HORSES.

Animals Returning from Canada Affected by New Law.

Ogdensburg, N. Y., Aug. 10.—Customs officers here are awaiting instructions from the treasury department about a clause in the new tariff bill which involves the future of horse racing in Canada. The Canadian tracks depend largely on American owned thoroughbreds for their sport, and hitherto, entries owned in the United States have passed free across the border and back again.

Collector Daniels, however, finds no provision in the new law for the re-entry, free of duty, of American horses entering Canada for exhibition or racing. His interpretation is that all returning live stock must pay full duties. Pending the arrival of advice from Washington, several horses consigned to the Montreal race track are held here.

WON'T WORK FOR A WOMAN.

Employees of Illinois Asylum Quit Their Jobs.

Elgin, Ill., Aug. 10.—Refusing to work under a woman supervisor, 21 of the Elgin State Hospital for the Insane employees resigned. Nine quit at once, 15 will remain until Aug. 17. Their action constitutes little less than a walkout.

Differences between the men attendants and the woman supervisor, Miss A. E. Brockbridge, culminated last Saturday when the striking 21 demanded that the management remove her. Miss Brockbridge has been supervisor of the south ward, which is for male patients only, for the last several months, having succeeded a man in the position.

FUTILE REACHING FOR APPLES

The boy who tried to knock the apple off a branch 10 feet high with a stick reaching only 9 feet 11 inches was in similar position to the advertiser who staves his "Printed Salesmanship" for want of the necessary word or necessary space to make his advertising effective.

If Advertising be given sufficient prominence, information and selling power to pay the reader, it can be made as long as the average magazine article or newspaper editorial (if necessary) and with profit.

Between the strong advertisement and the strong editorial there is, after all, very little difference.

Both have a purpose to achieve with readers.

Neither will be read unless it possesses sufficient new-interest, information or conviction to earn a reading.

And either can earn that if subject and treatment be judiciously handled.

DAILY DIET HINTS

By DR. T. J. ALLEN
Food Specialist.

DIGESTION LARGELY MENTAL PROCESS.

A dog was so treated that food could be prevented from passing into the stomach or could be conveyed to the stomach without first being masticated. When food which the dog liked was eaten and the same conveyed to the stomach, it was well and quickly digested; when the same food was masticated and another which the dog did not relish was conveyed to his stomach it was well digested; and when a food which he did not care for was given the hungry dog, and an equal portion of that which he relished was put in the stomach it was not readily digested. This proves that digestion is very largely a mental process and that, as the writer has contended, the remarkable results obtained by elaborate mastication are not due so much to the mechanical reduction of the food or to the chemical effect of the saliva on starch in the mouth, which is really slight, but to the psychological or mental effect due to contact, stimulating taste, in the mouth. It shows the importance of slow eating and the danger of the "quick lunch."

The Evening Chit-Chat

By RUTH CAMERON

"D" I think the way in which many girls study and grind and toil over their lessons in high school is absolutely absurd. It is not so bad in college, for the period of rapid growth and development is practically past when a girl enters college.

But for a mother to allow a little high school girl to spend her afternoons and maybe a large part of her evenings bending over her books, is little short of crime.

Perhaps your daughter wants to bring home a fine report card. Then tell her that if she can do it without undue effort you will be glad, but that if she cannot, you prefer rosy cheeks to "A's," and bright eyes to honors.

Of course, there are plenty of ambitious girls who do not in the least need to be restrained, and some brilliant girls who can win the honors without paying too highly for them; but I am not speaking of such cases.

In an academy near where I live, the girl who won the valedictory and the girl who won the salutatory last spring both broke down before the term was ended, and were unable to deliver their commencement parts.

Isn't that a tremendous object lesson?

The president of Mt. Holyoke college says that many girls come to her saying: "We don't understand how it is, but we can't sit up nights and study the way we used to in high school. We always used to do it there."

"That's just it," she answers them. "You always did it when you shouldn't have and now, of course, you can't. And because you overtaxed your strength then, now, when you need it so much, you haven't any."

"If I had a girl of 14 or 15 or 16," said a prominent woman doctor, discussing the case of a sickly little bookworm who was trying to bring back to health, "I'd try to have her climb trees and jump fence and be just as much of a tomboy as she possibly could."

A mind developed at the expense of a weakened body, becomes like a skilled artisan condemned always to work with blunted tools.

Mental vigor, however abundant, can never accomplish all it might, without physical vigor to support it.

"Health," some great writer has said, "is a crown on the head of the healthy; no one sees it but the sick."

Take your daughter's books away, drive her out of doors and in every way you can, see to it that she may be one who unconsciously wears this fair crown and not of those who sadly admire it on the head of another.

CORN EXCHANGE.

1869.—Beautiful Present.—The Baptist church was last week the recipient of a beautiful communion service, the present of a lady whose name was not known in connection with the gift. It was brought into use for the first time on Sunday last. By inquiry of Mr. Webb, from whom the communion service was purchased, we learn that it cost in round numbers, not far from \$75. This handsome present was truly an agreeable surprise.

The Capt. Last Evening.—The most sanguine expectations of the band, in respect to their concert last evening must have been fully realized. They were greeted by a large audience comprised of ladies and gentlemen of appreciative tastes who listened with pleased attention to the rendering of the program. We might devote a column to encomiums on the performers, both vocal and instrumental, who acquitted themselves so handsomely, but it is unnecessary. It is sufficient to say that many of the pieces were lustily encored and were repeated most cheerfully. The entertainment may be set down as a success in every point of view. The net receipts cannot be far from \$200.

PREPARING HIS FIGHT AGAINST HARRY THAW'S FREEDOM.

District Attorney William Travis Jerome of New York city seated on the porch of his country home.

LOOKING OVER REPORTS IN THE ELLIS ISLAND INVESTIGATION. Commissioner Williams and Secretary of Commerce and Labor Nagel.

New York.—Secretary Nagel of others at Ellis Island and enlarge and improve upon them. Secretary Nagel has, during his brief term of office, established one thing thoroughly—his power to get at the bottom of things. He is analytical and wants to know the basic reason for everything that is going on. Commissioner Williams is proving his ability at Ellis Island, and those who have been watching Nagel and Williams predict a great improvement in the administration of the immigration station.

EX-MAJOR LEAGUE PLAYERS DOING GOOD WORK WITH MINNEAPOLIS CLUB.

From left to right—Allie, Pickering, Catcher Jimmy Block and Pitcher Wilson.

Minneapolis, Minn.—Three ball players who have been seen in action in the big leagues are going good work with the Minneapolis club of the American association. Allie Pickering, for years was a member of the Cleveland team in 1902. "Kiddo" Wilson pitched for Milwaukee and then Joe Cantillon took him to Washington only to send him back to Minneapolis. Jimmy Block, catcher, is a Milwaukee born boy and before baseball fans read about him, he was a pugilist. Joe Cantillon, manager of the Washington team, with his brother, owns the Minneapolis team, and that accounts for the shifting of some Washington players to Minneapolis. If the players are very, very good they stay in Washington and if they are not quite fast enough for American league company, they are sent to "Brother Mike" Cantillon at Minneapolis.

Buying the First Bond.

In the lives of most people there are a few moments that are not only big with importance, but remain long in the memory. One of these moments may be the first sight of the ocean; another, when great snow-capped mountains first come into view. Still another, though, perhaps not quite so romantic, is that time when the average man or woman draws his or her savings out of a bank and buys the first bond.—Moody's Magazine.

On Porpoises.

A porpoise can neither play football nor yell, nor even so much as wave a flag. He can't smoke a pipe. He can't act like a fool, it is true, but he can't entertain the notion that in so doing he is bright. He can't call his father the pater, nor his mother the mater. He can't, merely by filling his head with the east wind, get to imagine himself simply it. Why, then, do we continue to speak of schools of porpoises?—Puck.
